**ABSTRACT**

Survey results are presented of tuition, room and board charges at member institutions of the American Association of State Colleges and Universities (AASCU) and the National Association of State Universities and Land-Grant Colleges (NASULGC). The findings indicate that it will cost more for the average student at state colleges and universities to attend school this year than last year, but the rise in most student charges is not as dramatic as was the increase between last year and the previous year. This report presents information on: (1) median student charges at state colleges and universities for resident and non-resident students, 1969-70 and 1970-71 at the NASULGC and AASCU institutions; (2) the reasons for the increases; (3) the 5-year trend in student charges; (4) the highest and lowest rates charged; (5) regional differences in charges; and (6) comparisons of charges by enrollments for the AASCU schools. The 10 institutions with lowest and highest charges for residents and nonresidents in the 2 groups are listed, as well as all the AASCU schools and their various student charges. (AF)

FOR RELEASE: OCTOBER 25, 1970

STUDENT COSTS CONTINUE TO RISE  
AT STATE COLLEGES AND UNIVERSITIES

It will cost more for the average student at state colleges and universities to attend school this year than last, but the rise in most student charges is not as dramatic as was the increase between last year and the previous year.

This general conclusion is based on surveys of tuition, room and board charges at member institutions of two organizations: the American Association of State Colleges and Universities (AASCU) and the National Association of State Universities and Land-Grant Colleges (NASULGC).

MEDIAN STUDENT CHARGES AT STATE COLLEGES AND UNIVERSITIES  
1969-70 and 1970-71

| NASULGC    | Tuition and<br>Required Fees |        | Room   | Board | Com-         | Tot-         | Total Charges |        |

AASCU

|            |       |       |       |       |       |        |        |
|------------|-------|-------|-------|-------|-------|--------|--------|
| 1970-71    | \$374 | \$843 | \$360 | \$475 | \$825 | \$1215 | \$1689 |
| 1969-70    | 350   | 795   | 320   | 440   | 793   | 1116   | 1585   |
| % increase | 6.85  | 6.03  | 12.50 | 7.95  | 4.03  | 8.87   | 6.56   |

Figures shown are the median rates for typical full-time undergraduate students for two semesters, two trimesters, or three quarters.

<sup>1</sup> These are the median charges for both room and board at those institutions which do not have separate rates for room and for board.

<sup>2</sup> These are the median charges for room and board at all institutions which provide housing, whether such charges are made separately for room and for board, or in combination.

Results from AASCU's 275 member schools--most of them regional state universities and colleges--show that the median total cost for the 1970-71 school year is \$1215 for in-state students. This is a rise of 8.87 per cent over last year's median of \$1116. Last year, these schools increased total cost by 6.7 per cent from the previous year.

At the 113 members of NASULGC--most of which are universities and land-grant colleges drawing students from all regions of a state--the median total charge for in-state students increased by 6.09 per cent. It was \$1297 in 1969, and is \$1376 this year. The rise in total costs last year from the year previous was 7.28 per cent.

Among members of both associations, charges for tuition and fees to in-state students rose much less steeply than last year, when this was the area of greatest increase.

Where there was a jump of 16.53 per cent last year among NASULGC members in resident tuition and fees, this year the charge rose by 6.72 per cent, from \$424 to \$452.50. Among the AASCU members, resident tuition and fees rose from \$350 to \$374, an increase of 6.85 per cent compared to last year's 14.0 per cent jump.

Largest increase in the NASULGC membership was in tuition and required fees for out-of-state students. These schools, which generally admit more out-of-state students than do the AASCU schools, boosted this charge from a median of \$1030 in 1969 to \$1106 in 1970--a rise of 7.37 per cent.

The generally less expensive AASCU schools are charging a median of \$843 to out-of-staters, an increase of 6.03 per cent from last year's figure of \$795.

For AASCU schools, the largest increase came in charges for dormitory rooms, with a steep 12.5 per cent jump, from a median of \$320 to one of \$360. Even this was not as large as the 14.6 per cent boost last year, however.

NASULGC schools showed a relatively modest boost of 4.77 per cent for rooms, from \$324.5 to \$340. This was a considerably smaller increase than the 9.2 per cent figure last year.

AASCU schools also increased board charges faster than did NASULGC schools--a jump of 7.95 per cent (from \$440 to \$475) compared to a rise of 5.40 per cent (\$500 to \$527). This was a greater increase than last year for both associations. The 1969 figure was 2.8 per cent for NASULGC, 5.0 per cent for AASCU.

#### REASON BEHIND INCREASES FORECAST SPIRALING TREND

The fact that most student charges increased less this year than last, both on a percentage basis and in dollars and cents, is less encouraging than it might seem on the surface. The reasons behind the boosts paint a much gloomier picture.

(MORE)

In simple terms, public universities raise their charges to students only when they cannot find the funds to meet their expenses anywhere else. The low-tuition principle, which has enabled more and more young people to obtain a college education, has been guarded by these institutions since their founding. The financial realities of the Seventies, however, are making this tenet more of a dream than a reality. One university president predicted that annual tuition increases may have to become a fact of life.

The primary reason cited by universities for increases this fall was inflation. Sixty-one NASULGC members noted that this was a prime factor in making increases. Of secondary, but far from minor, importance were inadequate appropriations from state legislatures. Although appropriations for operating expenses of public higher education will reach a record level of \$7,003,798 during 1970-71, needs that cannot be met by state tax support continue to mount. Universities in at least six states indicated that they had been forced to raise student charges by directives from state legislatures, boards of higher education or boards of trustees requiring them to obtain part of additional needed revenue in this way.

Even with austerity budgets which do not allow for new programs or staff expansion, many universities have found it necessary to raise student fees just to balance the ledger and maintain the quality of already existing programs. Along with tuition increases necessary to meet instructional costs, room and board charges are going up in accordance with the rising costs of goods and services. In addition, a growing number of institutions are having to obtain capital funds that are desperately needed to provide for more and more students, in part by special student assessments.

Indicative of what may be an ever-widening trend in public higher education, the University of Wisconsin increased non-resident annual tuition by \$472 this year because of the belief of the university's Board of Regents that out-of-state students should pay the full cost of their instruction. The state legislature set up a similar requirement for the establishment of out-of-state tuition for the University of New Hampshire in 1969.

#### LONG-TERM TREND--THIRTY PER CENT INCREASE

A look at what has happened to student costs over the past five years most effectively underscores the alarming rise in charges in every category. Comparative data on total costs shown here were the national medians for both NASULGC and AASCU for the 1965-66 academic year. In summary there has been an average yearly increase of over six per cent in total charges to resident students for both associations. NASULGC schools have increased total charges to non-residents on an average of almost seven per cent annually, and AASCU schools have had an annual average increase of better than eight per cent.

| AASCU   | 915         | 1,193         | 1,215       | 1,689         | 32.7%               | 41.6%         |

HIGHEST AND LOWEST RATES

AASCU figures for 1970 show only nine schools charging less than \$150 for resident tuition and fees, compared with 19 last year. Those in this category this year are in Washington, D.C., and California. Similarly, only two NASULGC institutions have resident tuition and fees of less than \$200 this year, while 11 were in this bracket last year. (The two this year are Prairie View A & M, Texas, with \$154, and Federal City College, D.C., with \$97.50. Federal City is also a member of AASCU).

The top ten AASCU schools all charge between \$700 and \$740 for resident tuition and fees. All but one of the schools in this group are in Pennsylvania--the result of a major boost in tuition in that state. The top ten NASULGC schools with the exception of Cornell University and the Massachusetts Institute of Technology--the association's only private institutions--range from \$660-\$905.

For out-of-state student tuition and fees, the top ten NASULGC institutions all charge more than \$1700, while the lowest ten range from \$454 to \$654. The equivalent figures for AASCU schools are more than \$1430 for the top ten, and \$490 or less for the bottom ten.

REGIONAL DIFFERENCES PINPOINTED

Distinct regional variations in how much students will be expected to pay emerged.<sup>1</sup>

In a comparison by region of institutions belonging to NASULGC, the Southeast had the lowest median for total costs to both resident and non-resident students. Tuition and fees charged resident students in the West produced the lowest median in that category, and the median for the Mideast was the most moderate one for non-resident tuition and fees.

The Southeast was also the region with the lowest median total costs for resident students among AASCU members, but New England produced the lowest median for non-resident total costs. The West again had the lowest median for tuition and fees charged resident students, and New England had the most moderate median for non-resident tuition and fees.

Among NASULGC institutions, both the Southeast and the West fell below the national median of \$1376 for total charges to resident students for an academic year. The median for the Southeast was \$1,234, while the median for the West was \$1,346. Other regional medians stood at \$1,481 for the Mideast, \$1,493 for the Midwest and \$1,519 for New England.

(MORE)

Regional medians for total charges to resident students attending AASCU institutions followed much the same pattern. A median for the Southeast of \$1105 and the median for the West of \$1179 were both below the national median of \$1215. New England was exactly on the \$1215 median. The Midwest had a median of \$1314 and the Mideast led the country at \$1440.

In a regional comparison of non-resident total costs, the Southeast again had the lowest total costs among NASULGC regions. The region's median of \$1,899 was followed by a \$1,997 median for the Mideast, both of which were below the national median of \$2019. The West followed with a \$2021 median while both New England and the Midwest were well above the median, at \$2,376 and \$2,392 respectively.

Among AASCU institutions, three regions reported medians below the national level of \$1689. New England was at \$1577, the Southeast followed with a \$1632 median, and the West had a median of \$1680. The Midwest stood at \$1820 and the Mideast was the most costly region at \$1880.

Medians for tuition and required fees by region for resident students at NASULGC institutions pinpointed the West as the region with lowest costs. The regional median was \$429. The Mideast, with a median of \$448, and New England and the Southeast with medians of \$450 all clustered around the national median of \$452.50. The Midwest reported the highest median tab in this category at \$510.

Two regions of AASCU--the West and New England--had moderate medians of \$230 and \$275 respectively for resident tuition and required fees. The Southeast followed with a median of \$352 as compared with a national median of \$374. Ranking above the national level were the Midwest at \$420 and the Mideast at \$516.

Regional comparisons of non-resident tuition and fees among NASULGC universities revealed a \$470 range in medians. The least costly region for out-of-state students was the Mideast at \$950 as compared with the national median of \$1,106. The Southeast had a \$1,017 median and the West followed at \$1,129. Ranking well above these regions were New England at \$1,350 and the Midwest at \$1,420.

Regional differences among AASCU institutions in regard to non-resident tuition and fees were much less pronounced. New England with a \$675 median was the least costly region followed by the Mideast at \$789. The Southeast at \$840 was just below the national median of \$843, which was also the median for the West. The only region ranking above the median was the Midwest at \$984.

(MORE)

#### COMPARISON BY ENROLLMENTS

Analysis of the AASCU figures shows that the larger schools--those with enrollments more than 10,000--most often have total charges above the median. Of the 32 AASCU institutions of this size, seven are below the median for total charges, two are within \$25 in either direction of the median, and 23 (71 per cent) are above the median.

By contrast, schools charging above the median amount to only 37 per cent of schools with enrollments of less than 5,000 (49 schools out of 131) and 40 per cent of schools with enrollments of between 5,000 and 9,999.

(Equivalent statistics were not figured for NASULGC.)

---

<sup>1</sup>For regional comparison, the states were divided as follows: NEW ENGLAND--Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island; MIDEAST--New York, New Jersey, Pennsylvania, Delaware, Maryland, D.C.; SOUTHEAST--Virginia, West Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Georgia, Florida, Alabama, Louisiana, Mississippi, Arkansas; MIDWEST--Michigan, Minnesota, Indiana, Illinois, Ohio, Kansas, Wisconsin, Missouri, North Dakota, South Dakota, Iowa, Nebraska; WEST--Montana, Wyoming, Colorado, Utah, Oklahoma, Texas, Nevada, Washington, Oregon, California, Idaho, Arizona, New Mexico, Hawaii, and Alaska.
